

## THERE IS A WARMTH AND A SENSE OF CARING AT NORTHWEST COLLEGE.

Students and alumni alike talk about professors who challenged their perspectives and helped them discover their potential. They boast of friendships made here that last a lifetime. And they speak of a campus that is welcoming. Like the panels on a quilt, their stories become the fabric of Northwest College – its culture, its values and its traditions.

## NWC'S REPUTATION FOR HIGH-QUALITY, PERSONALIZED INSTRUCTION AND STUDENT SUPPORT CAN NO LONGER OUTSHINE ITS AGING FACILITIES.

Built below grade, water collection issues, resulting in water/sewer seepage and crumbling foundations, have compounded deterioration of the 55-year-old DeWitt Student Center. No amount of patching and repairing can sustain the facility or address its dark, boxed-in rooms.

A new center with a modern dining hall and bright, safe spaces where students can engage in studying, eating, gathering and leadership is NWC's priority. A contemporary student center will help attract and retain students, and enhance out-of-classroom learning and a sense of belonging – one that captures the Trapper spirit.

## NWC IS CRITICAL TO THE GROWTH AND PROSPERITY OF PARK COUNTY AND THE SURROUNDING REGION.

The College plays a vital role in the regional economy as a significant employer and by educating a workforce to support local business and industry. Northwest also adds to the area's quality of life with arts and cultural programming, intercollegiate athletics and more.

## ENSURING VIBRANCY AT NWC IS AN INVESTMENT IN THE FUTURE.

The Student Center enjoys a history as the campus' convening location – a place where technology fades and real-life interaction happens. It's time for NWC to honor this legacy and achieve a Vibrancy in its buildings that matches the energy and drive of its students.

# VIBRANCY

*Vibrancy: The Campaign for Northwest College celebrates our heritage and drives forward an imperative to transform our campus into an innovative, dynamic center for student learning and community vitality.*

# VIBRANCY

## TEMPORARY DINING FACILITY 3,580 SQ FT

*This building will later transition into a soccer facility, completing another NWC master plan project.*

### JUNE 2022

*Architectural design completed*

### JANUARY 2023

*Demolition of current structure / Construction begins*

### AUGUST 2024

*New Student Center opens for fall term*

## A STUDENT CENTER IS THE HEARTBEAT OF A CAMPUS.

It is time NWC's tired bricks and mortar receive facelifts that alleviate health and safety concerns and support the innovation we are capable of delivering. Our students deserve the very best space to build their skills, sense of community and friendships.
